## ***THE COMPANY'S CURRENT BUSINESS FOCUS.***

### **Rice Milling**

The company prides its self in the productions and processing of clean destoned and quality rice that is being processed on the farm. The farm complete lines of milling machine that can produce 20 tons of rice in a matter of hours.

### **Honey production**

The Qu-viro honey widely known for its undoubting quality and taste is one of the best and most hygienically produced in the country. The farm does not compromise quality for profit, our objective which is to satisfy the need of our customers stands at all times as our ultimate goal.

### **Cassava processing**

The company currently has expanded its production enterprise to processing and production of quality garri.

The product of this company which having been put through all quality test stands out even with the authority regulating food in Nigeria (NAFDAC) and others.

The use of vitamin A fortified cassava is the main modus operandi and the farms has a fully operational complete cassava processing line one of the very few in the entire sub- Saharan Africa region.

It will also interest the reader to know we fabricate some of our machines locally.

### **Shea butter production**

The core objective of the company from its inception has been value addition i.e. adding value to raw agricultural materials. The production of shea butter at Qu-viro farms is done in the most professional manner found with the help of modern technology.

### **Aquaculture**

Qu- viro farms limited stands out in aquaculture for its incredible methods of culturing healthy fishes mostly catfish and tilapia. The company also ensures the hatching and culturing up until the point of sale of healthy hatchlings and fingerlings. We produce as well as provide means of transportation for our customers at affordable prices.
